**Re: Registry Request #2011007, Whois changes according to EU data protection legislation for .cat**

Dear Mr. Amadoz,

ICANN has conducted a preliminary review of Fundacio puntCAT's request regarding Whois changes in .cat. The review was conducted in accordance with the Registry Services Evaluation Policy and process set forth at <http://www.icann.org/registries/rsep/rsep.html>.

ICANN's preliminary review (based on the information provided) did not identify any significant competition, security, or stability issues.

As noted in the proposal, implementation will require an amendment to the .cat Registry Agreement signed 23 September 2005. Please send us your proposed Registry Agreement amendment in editable format. We will get back to you as soon as possible with details on the process for consideration of the proposed amendment and with any comments we might have on the text of the proposed amendment.

Thank you for your cooperation. Please let us know if you have any questions.

Best regards,

Karla Valente
