Re: Registry Advantage

To Whom It May Concern:

This letter is to certify that Nic AG has outsourced the back end operations of the .ag registry to Registry Advantage, a business unit of Register.com, Inc.

The registry has been up and running on Registry Advantage's systems since December 2001, and we have been very happy with the results thus far. Registry Advantage conducted the data migration in a professional and expeditious manner. We experienced no downtime and no data loss.

We chose Registry Advantage over others because of their responsiveness and the stability and security of their technology. The .ag extension had been growing in popularity, and so had our infrastructure needs. Registry Advantage provides us with a robust registration system, and allows us to continue to manage .ag consistent with our own policies to benefit the Internet community within Antigua.

Sincerely,

Dr. Patrick Lay
President & CEO
Nic AG Ltd.
