Ref: Call for Volunteers for Competition, Consumer Trust and Consumer Choice Review Team

To whom it may concern,

I am writing this letter to apply for the CCT-RT at ICANN. I saw an open call for the applications on <https://www.icann.org/resources/pages/call-volunteers-cct-rt-2015-10-01-en>

I am very familiar with the work of ICANN, since I was following the meetings and procedures since 2010 due to my job being a gTLD consultant, working for a backend provider. Moreover, I was very pleased to find out about this contribution possibility, since I perceive your organization as the leading organization in global policy making regarding the market evolution of top level domains.

I believe that my strong educational background and extensive experience in the TLD field make an appropriate candidate for the advertised task. As you can see in the enclosed resume, I have been working as a project and sales manager with nic.at for 5 years. Since my responsibilities and duties were quite similar to those required in the ad of your organization, I strongly believe that I can perform well all the delegated duties and tasks. As greatest success on this position I would like to point out that we serve ten gTLD operators with our in-house developed backend solution and I was involved from the first versions of the Applicant Guidebook (AGB) until successful operation of our gTLD customers.

On the previous posts I have been always receiving excellent feedback from my employers, which proves my strong commitment to perform my responsibilities in professional and effective manner. I like to work in a team, but I am also comfortable working on my own. Furthermore I am a good communicator, accurate, goal oriented, and have a strong will to achieve. Thanks to my wide experience in the domain business I believe it makes sense to offer my contribution to the CCT review team.

I perceive this participation opportunity as a significant milestone and reference, since ICANN is the leading organization in the field. I believe that work in ICANN can be a good environment to show off my potential and utilize my skills and knowledge. In that line I am looking forward to being further considered.

As requested I am enclosing my resume and the Statement of Interests and Affirmation, where you can find detailed information on my experience and skills. References are available on request, or you can contact the reference persons listed below on your own.

Yours faithfully,

DI Martin Schlicksbier, MSc
