RE: Application for .Brand TLD Designation

Barclays Bank PLC ("Registry Operator"), in connection with the execution of the Registry Agreement for the .BARCLAYS TLD (the "Registry Agreement"), hereby applies for .BARCLAYS TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD Application Process and Specification 13 attached thereto, and that all supplemental material accompanying this application is accurate and not misleading in any respect. Registry Operator also represents that the trademark registration attached hereto as Exhibit A, the registration policies attached hereto as Exhibit B, and the SMD file ID number attached hereto as Exhibit C are complete and accurate copies of the official trademark registration, Registry Operator's registration policies for the TLD, and the SMD file ID for the TLD for which this application is submitted respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator, and ICANN may assert its rights under the Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13.

Article 2. Scope of application

2.1. This Policy describes, among other items:

1. the terms under which the Registry can reserve, register, delegate and use Domain Names, in accordance with the terms of the Registry Operator Agreement;
2. how Applications can be submitted to the Registry during the different Phases devised by the Registry, as well as how the Registry will deal with Domain Name Registration requests, in case the Registry would allow at its sole discretion, at a certain point in time, one or more (categories of) third parties to register one or more Domain Name(s), by liberalizing the initial Eligibility Requirements (*i.e.* the Launch of the .BARCLAYS TLD);
3. the way in which Applications will be processed;;
4. the rules under which Applications or subsequent Domain Name Registrations may be challenged; and
5. in general, all the technical and administrative measures that the Registry shall use to ensure proper, fair and technically sound administration of the .BARCLAYS launch and the preservation of the integrity of the Registry's trademarks, as well as setting out the basic rules and procedures applicable to:
 - Applicants or anyone submitting an Application in its own name or on behalf of a third party with the Registry;
 - the Registry;
 - the Accredited Registrars;
 - any party in whose name a Reconsideration Request is submitted;
 - any person or entity interested in obtaining a Domain Name.

2.2. In order to ensure a proper, fair and technically sound administration of the Launch of the .BARCLAYS TLD, the Registry has put in place the processes and procedures described in this Policy, which will apply to Applications and/or Domain Name Registrations effected within specific timeframes set by the Registry.

2.3. The Registry may change this Policy, including the conditions and requirements contained herein at its sole discretion, which changes will enter into effect immediately following the publication thereof on the Registry Web Site, unless provided otherwise in writing.

Article 3. Eligibility

3.1. In order to be eligible to submit an Application or maintain a Registration in the .BARCLAYS TLD, the Applicant or Registrant must meet each of the criteria set out in the Eligibility Requirements. The Registry shall be entitled to modify these criteria at its sole discretion, without any prior notification. These new criteria enter into force following publication on the Registry Web Site unless stated otherwise in the Eligibility Requirements.

3.2. If and when the Registry launches its operations, *i.e.* allow third parties other than the Registry to register Domain Names, it will develop and publish further practical guidance on such launch, if it deems fit.

3.3. The Registry shall be entitled, at its sole discretion, to reject, revoke, temporarily or permanently suspend, delete or cancel at any time any Application or resulting Domain Name Registration if it appears that the Applicant did not fulfil the requirements set out in the Policy at the time of receipt of the corresponding Application by the Registry. This includes, without limitation, situations where the Registry receives a notice given by a government or judicial body, indicating that said Application, Domain Name Registration or the content provided thereunder is considered defamatory, contrary to public order or morality or otherwise not allowed under applicable law. The Registrant expressly agrees and accepts that he or she shall not be entitled to claim any compensation or refund from the Registry when the latter implements such instruction. The Registry is also entitled to do so if it is of the opinion that the Applicant and/or Registrant does not meet all of the Eligibility Requirements in force at that time and such non-compliance could directly or indirectly damage, impair or disrupt the reputation and/or activities of the Registry, the integrity of the .BARCLAYS brand and/or any of the Registry's trademarks.

3.4. The Registry shall at all times be entitled to determine at its sole discretion the name servers for each Domain Name, and the services associated therewith. Whenever parties other than the Registry will be entitled to register Domain Names in the .BARCLAYS TLD or obtain the delegation of certain roles and responsibilities with respect to such Domain Names (as indicated in the additional Contacts associated with such Domain Names), the Registry will develop a policy as regards the name servers and services associated with such Domain Names.

3.5. The Registry shall at all times be entitled to define and introduce a verification process in order to confirm that the Application and/or Domain Name Registration has actually been made by a party meeting the Eligibility Requirements in force during the respective Phases.

CHAPTER 2. The .BARCLAYS Launch Process

Article 4. Purpose and principles

4.1. This Policy contains the terms and conditions under which the Registry, Applicants and Registrants who meet the Eligibility Requirements are provided with the opportunity to reserve, apply for, register and delegate Domain Names in the .BARCLAYS TLD.

4.2. At any time following the entry into force of the Registry Agreement, the Registry may reserve, register and delegate any of the Domain Names contained in Annex 1 for its own use. The Registry may change such Annex 1 at any point in time and at its sole discretion.

4.3. Any and all Applications or Domain Name Registration requests must be submitted to the Registry's Shared Registration System through an Accredited Registrar, who acts on behalf of the Applicant or Registrant, but for its own account.

4.4. However, the Registry will only effectuate a Domain Name Registration insofar and to the extent that:

- the Registrant meets the Eligibility Requirements;
- the Domain Name meets all the criteria set out in this Policy;
- the Domain Name is available; and
- the Accredited Registrar holds sufficient funds with the Registry.

4.5. Any Application submitted during the Pre-Launch phase, the Sunrise Process, the Trademark Claims Period or General Availability must meet the relevant terms and conditions as set out in this Policy. All conditions that are not indicated to relate to a specific phase or process (such as, but not limited to, the Eligibility Requirements) apply to all Applications and/or Domain Name Registrations.

4.6. Furthermore, if the Registry is informed of the fact that a third party holds an Eligible Trademark to a Domain Name, the Registry shall be entitled to suspend or to cancel such Domain Name Registration at its sole discretion, at least until sufficient safeguards, representations and warranties have been obtained from the Registrant and the parties who have directly or indirectly initiated such trademark claim.

Article 5. The .BARCLAYS Pre-Launch Phase

During the Pre-Launch Phase, the Registry shall only register and use Registry Reserved Names.

Article 6. Sunrise Phase

6.1. Overview of the Sunrise Process

the Registry is exempt from complying with the requirements of Specification 9 to the Registry Operator Agreement, notwithstanding the provisions of Section 6 of Specification 9 and no Sunrise Process is offered.

Article 7. Trademark Claims Period

After the Launch, Trademark Claims Services shall be provided during the first 90 days following the Launch. Trademark Claims Services shall also be provided during the first 90 days following subsequent Launch Phases.

Article 8. Processing of Applications; Exchange of Information

All Applications shall be submitted to and Domain Name Registrations maintained with the Registry by an Accredited Registrar.

Due to the fact that the Registry's Shared Registration System is the one and only authoritative database for Domain Names registered in the .BARCLAYS TLD, neither the Registry nor the Trademark Clearinghouse Operator shall be entitled to amend or cancel Applications or Application Data, unless such Application Data has been processed through the Trademark Clearinghouse.

Supplementary information may be requested via email or other communication media as appropriate. Under normal circumstances, the Accredited Registrar is responsible for all Applications submitted as specified in the Registry-Registrar Agreement. Assistive notifications or requests for (additional) Documentary Evidence may, however, be sent to the Applicant directly by the Accredited Registrar.

CHAPTER 3. Domain Name Allocation

Article 9. Domain Name Allocation for Registry Reserved Names

The Registry shall determine at its sole discretion how and when the Domain Names mentioned on the list contained in Annex 1 hereto shall be registered and used.

Article 10. Domain Name Allocation during the Sunrise Processes

10.1. Single Applications

the Registry is exempt from complying with the requirements of Specification 9 to the Registry Operator Agreement, notwithstanding the provisions of Section 6 of Specification 9 and no Sunrise Process is offered.

Article 11. Domain Name Allocation during General Availability

With the exception of Domain Names that have been allocated or reserved in the context of the respective Launch Processes and procedures, any party meeting the respective Eligibility Requirements shall be entitled to request a Domain Name Registration with the Registry following the start of General Availability for those eligible Registrants.

The Registry shall effectuate such Domain Name Registration based on internal registrations policies..

CHAPTER 4. Dispute Resolution Policies
