.Brand TLD Designation Application

Internet Corporation for Assigned Names and Numbers ("ICANN")
12025 Waterfront Drive, Suite 300
Los Angeles, California 90094
Attention: New gTLD Program Staff

RE: Application for .Brand TLD Designation

Alliance-One Services, Inc. ("Registry Operator"), in connection with the execution of the Registry Agreement for the .CSC TLD (the "Registry Agreement"), hereby applies for .CSC TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD Application Process and Specification 13 attached thereto, and that all supplemental material accompanying this application is accurate and not misleading in any respect. Registry Operator also represents that the trademark registration attached hereto as Exhibit A, the registration policies attached hereto as Exhibit B, and the SMD file ID number attached hereto as Exhibit C are complete and accurate copies of the official trademark registration, Registry Operator's registration policies for the TLD, and the SMD file ID for the TLD for which this application is submitted, respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator, and ICANN may assert its rights under the Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13. Questions about this request should be directed to [REDACTED] the undersigned.

Article 2. Scope of application

2.1. This Policy describes, among other items:

1. the terms under which the Registry can reserve, register, delegate and use Domain Names, in accordance with Article 2.6, second sentence of the Registry Operator Agreement;
2. how Applications can be submitted to the Registry during the different Phases offered by the Registry, as well as how the Registry will handle Domain Name Registration requests, if the Registry allows, at a certain point in time and at its sole discretion, one or more Affiliates or Trademark Licensees, or other third parties as may be permitted at a future time pursuant to amendments to this Policy, to register one or more Domain Names;
3. the way in which Applications will be processed and, insofar as these Applications are submitted during the Sunrise Period, validated by the Trademark Clearinghouse Operator;
4. the rules under which Applications or subsequent Domain Name Registrations may be challenged; and

5. in general, all the technical and administrative measures that the Registry shall use to ensure proper, fair, technically sound administration of the .CSC launch and the preservation of the integrity of the Registry's trademarks, setting out the basic rules and procedures applicable to:

- Applicants or anyone submitting an Application in its own name or on behalf of a third party with the Registry;
- the Registry;
- the Accredited Registrar(s);
- any party in whose name a Reconsideration Request is submitted;
- any eligible person or entity interested in obtaining a Domain Name.

2.2. In order to ensure a proper, fair, technically sound administration of the Launch of the .CSC TLD, the Registry has put in place the processes and procedures described in this Policy, which will apply to Applications and/or Domain Name Registrations effectuated within specific timeframes set by the Registry.

2.3. The Registry may change these Policies, including the conditions and requirements contained herein at its sole discretion, which changes will enter into effect immediately following the publication thereof on the Registry Web Site, unless provided otherwise in writing.

Article 3. Eligibility

3.1. In order to be eligible to submit an Application or maintain a Registration in the .CSC TLD, the Applicant or Registrant must meet the criteria set forth in the Eligibility Requirements in Appendix 2 below. The Registry shall be entitled to modify these criteria at its sole discretion, without any prior notification. These new criteria will enter into force following publication on the Registry Web Site, unless stated otherwise in the Eligibility Requirements.

3.2. If and when the Registry will allow third parties other than the Registry to register Domain Names, it will develop and publish further information dictating the terms of such launch, if it in its sole discretion determines to offer such a Phase.

3.3. The Registry shall be entitled, at its sole discretion, to reject, revoke, temporarily or permanently suspend, delete or cancel at any time any Application or resulting Domain Name Registration if it appears that the Applicant did not fulfil the requirements set out in the Policies at the time of receipt of the corresponding Application by the Registry. This includes, without limitation, situations where the Registry receives a notice given by a government or judicial body, indicating that said Application, Domain Name Registration or the content provided thereunder is considered defamatory, contrary to public order or morality or otherwise not allowed under applicable law. The Registrant expressly agrees and accepts that he or she shall not be entitled to claim any compensation or refund from the Registry when the latter implements such instruction. The Registry is also entitled to do so if, in its sole discretion, it determines that the Applicant and/or Registrant does not meet all of the Eligibility Requirements in force at that time and/or such non-compliance could directly or indirectly damage, impair or disrupt the reputation and/or activities of the Registry, the integrity of the CSC brand and/or any of the Registry's trademarks.

3.4. The Registry shall at all times be entitled to determine at its sole discretion the name servers for each Domain Name, and the services associated therewith. Whenever parties other than the Registry will be entitled to register Domain Names in the .CSC TLD or obtain the delegation of certain roles and responsibilities with respect to such Domain Names (as indicated in the additional Contacts associated with such Domain Names), the Registry will develop a policy as regards the name servers and services associated with such Domain Names.

3.5. The Registry shall at all times be entitled to define and introduce a verification process in order to confirm that the Application and/or Domain Name Registration has actually been made by a party meeting the Eligibility Requirements in force during the respective Phases.

CHAPTER 2. The .CSC Launch Process

Article 4. Purpose and principles

4.1. These Policies contain the terms and conditions under which the Registry, Applicants and Registrants who meet the Eligibility Requirements are provided with the opportunity to reserve, apply for, register and delegate Domain Names in the .CSC TLD.

4.2. At any time following the entry into force of the Registry Agreement, the Registry may reserve, register and delegate any of the Domain Names contained in Annex 1 for its own use. The Registry may change such Annex 1 at any point in time and at its sole discretion.

4.3. Any and all Applications or Domain Name Registration requests must be submitted to the Registry's Shared Registration System through an Accredited Registrar, who acts on behalf of the Applicant or Registrant, but for its own account.

4.4. However, the Registry will only effectuate a Domain Name Registration insofar and to the extent that:

- the Registrant meets the Eligibility Requirements;
- the Domain Name meets all the criteria set out in these Policies;
- the Domain Name is available; and
- the Domain Name is not prohibited by ICANN

4.5. Any Application submitted during (as applicable) the Pre-Launch phase, the Sunrise Process, the Trademark Claims Period and/or General Availability must meet the relevant terms and conditions as set out in these Policies. All conditions that are not indicated to relate to a specific phase or process (such as, but not limited to, the Eligibility Requirements) apply to all Applications and/or Domain Name Registrations.

4.6. Furthermore, if the Registry is informed of the fact that a third party holds an Eligible Trademark to a Domain Name, the Registry shall be entitled to suspend or to cancel such Domain Name Registration at its sole discretion, at least until sufficient safeguards, representations and warranties have been obtained from the Registrant and the parties who have directly or indirectly initiated such trademark claim.

Article 5. The .CSC Pre-Launch Phase

During the Pre-Launch Phase, the Registry is the only party entitled to register Domain Names in the .CSC TLD. During this Phase, the Registry shall only register and use Registry Reserved Names.

Article 6. Sunrise Phase

6.1. Overview of the Sunrise Process

The Registry may organize one or more Sunrise Processes in connection with and/or after the Launch (If approved as a .Brand TLD by ICANN, the Registry may choose not to organize a Sunrise Process).

Unless provided otherwise by the Registry, the Sunrise Process shall be a minimum of thirty (30) days and will follow the Trademark Clearinghouse requirements.

6.2. Validation of Claims during the Sunrise Phase

Applications received during any Sunrise Phase are subject to validation as described in this Article, which is a condition precedent for the Registry to actually proceed with the registration of the Domain Name referred to in the Application.

The Registry shall be entitled to impose additional terms and conditions upon Applicants, Registrants and/or Accredited Registrars as it deems fit, in particular in order to maintain, directly or indirectly, the integrity and the exclusive character of the Registry and the CSC brand, and any and all rights, including intellectual property rights, associated therewith.

Following receipt of an Application, the Trademark Clearinghouse Operator shall inform the Registry of its findings in a manner agreed by and between them.

Upon request of the Registry, the Trademark Clearinghouse Operator will confirm that:

- the respective Application corresponds to an Eligible Trademark, as described in the most recent version of the Applicant Guidebook and the Trademark Clearinghouse Guidelines and inclusive of trademarks in Annex 1; and
- the Applicant is the registered owner of the Eligible Trademark or, if the Applicant claims to be a Trademark Licensee authorized to use the Eligible Trademark by the registered owner of the Eligible Trademark, or the Applicant claims to be the assignee, that the relevant party is authorized to file the Application.

If the Trademark Clearinghouse Operator and/or the Registry is unable to validate the information contained in an Application in accordance with the process described above, the Registry shall be entitled to reject that Application.

6.3. Use of the Trademark Clearinghouse during the Sunrise Period

Applicants are obliged to have their Application Data pre-validated and, where necessary, corrected by using the Trademark Clearinghouse, which is a facility operated by the Trademark Clearinghouse Operator if they would like to benefit from the opportunity to register a Domain

Name that corresponds to their Eligible Trademark during any Sunrise Phase(s). By way of the Trademark Clearinghouse, the Trademark Clearinghouse Operator will provide reasonable assistance to prospective Applicants in order to pre-validate Application Data and, where necessary, correct such data in order to enable Applicants to submit accurate and up-to-date Applications to the Registry in accordance with the terms and conditions of the Trademark Clearinghouse Operator.

The use of the Trademark Clearinghouse during the Sunrise Period is mandatory.

Furthermore, the Applicant must use the services of an Accredited Registrar in order to submit the actual Application on the basis of the information that has been pre-validated and provided by the Trademark Clearinghouse.

6.4. Claims, information to be included in Applications during the Sunrise Period

The information contained in the Application shall be the initial basis on which the Trademark Clearinghouse Operator shall attempt to validate the Applications and the Claims made therein. It is the Applicant's responsibility to ensure that the information provided in an Application (Claim) is correct, complete, legible, accurate and otherwise sufficient to verify on a *prima facie* basis the validity of such Claim. The Registry disclaims any and all responsibility or liability for any failure by Applicant to provide information and Documentary Evidence in accordance with the foregoing standard, regardless of whether an Application is accepted or rejected.

Following the Registry's decision to register a Domain Name in the name of a particular Applicant, such Applicant will become the Registrant of such Domain Name.

Article 7. Trademark Claims Period

Trademark Claims Services shall be provided during the first ninety (90) days following the Launch. Trademark Claims Services shall also be provided during the first ninety (90) days following any subsequent Sunrise Phase(s), should any be conducted.

Article 8. Processing of Applications; Exchange of Information

All Applications shall be submitted to and Domain Name Registrations maintained with the Registry by an Accredited Registrar.

Considering the fact that the Registry's Shared Registration System is the one and only authoritative database for Domain Names registered in the .CSC TLD, neither the Registry nor the Trademark Clearinghouse Operator shall be entitled to amend or cancel Applications or Application Data, unless such Application Data has been processed through the Trademark Clearinghouse.

Supplementary information may be requested of the Applicant via email or other communication media as appropriate. Under normal circumstances, the Accredited Registrar is responsible for all Applications submitted as specified in the Registry-Registrar Agreement. Assistive notifications or requests for (additional) Documentary Evidence may, however, be sent to the Applicant directly by the Accredited Registrar.

CHAPTER 3. Domain Name Allocation

Article 9. Domain Name Allocation for Registry Reserved Names

The Registry shall determine at its sole discretion how and when the Domain Names mentioned on the list contained in Annex 1 hereto shall be registered and used.

Article 10. Domain Name Allocation during the Sunrise Process

10.1. Single Applications

Domain Names for which only one Application is received by the Registry during the respective Phase that are successfully verified according to these Policies will be registered in the name of the respective Applicant.

10.2. Multiple Applications

If more than one Application of a particular available Domain Name has been received during a particular Sunrise Phase, and more than one of the Claims contained therein were successfully verified, as set out in these Policies, the Domain Name will be allocated on a first-come, first-served basis.

10.3. Name Collision Applications

The registry reserves the right to allocate domain names listed on the Name Collision Occurrence Assessment provided by ICANN during the Pre-Launch phase, the Sunrise Process, the Trademark Claims Period or General Availability, but will not activate any names in the DNS zone for the Registry TLD except in compliance with said Assessment.

Article 11. Domain Name Allocation during General Availability

With the exception of Domain Names that have been reserved by the Registry or allocated during any Sunrise Process, any party meeting the respective Eligibility Requirements shall be entitled to request a Domain Name Registration with the Registry following the start of General Availability for those eligible Registrants.

The Registry shall effectuate such Domain Name Registration on a first-come, first-served basis, subject to the terms and conditions laid down herein. This means that the first complete and compliant Application to register a Domain Name submitted by an Accredited Registrar and received by the Shared Registry System will result in a Domain Name Registration.

CHAPTER 4. Dispute Resolution Policies

Article 12. Disputes relating to registered Domain Names

12.1. Every Registrant acknowledges and accepts:

- that any proceedings concerning a Domain Name must be conducted before the Arbitration Center of the World Intellectual Property Organization (WIPO) in accordance with the UDRP, the Rules for UDRP and any relevant supplemental rules, as made available on <http://www.wipo.int/amc/en/domains/rules/> and/or the Rules for URS and

any relevant supplemental rules, as made available on <http://newgtlds.icann.org/en/applicants/urs>; and

- to participate in good faith in any Domain Name dispute initiated by a third party complainant under the UDRP and URS against the Registrant and to comply with the dispute resolution provider's rules for each.

12.2. Any party may make a request to the Disputes Point of Contact for further clarification or information with respect to an Application or Domain Name Registration prior to or following the procedures published on the Registry Web Site. Upon a determination by the dispute resolution provider, the Registry shall implement the decision in a timely manner.

Article 13. Eligibility Reconsideration Proceedings

13.1. If after a review by the Registry and/or following submission of a complaint to the Disputes Point of Contact, the Registry determines that the Registrant or Domain Name Registration in question did not meet the Eligibility Requirements, the Registry will notify the Registrant of such failure to meet the Eligibility Requirements.

13.2. The Registrant has ten (10) working days following the notification referred to in Article 13.1 in order to ensure that it is in compliance with the Eligibility Requirements.

13.3. If the Registrant is not in compliance with these requirements within this timeframe, the Registry will be entitled to suspend and/or delete the respective Domain Name(s) of the Registrant. The Registry disclaims any and all responsibility or liability for suspending or deleting the Domain Name(s) following Registrant's failure to timely cure its compliance with the Eligibility Requirements, or for suspending or deleting any Domain Name(s) for the additional reasons set forth in 3.3.

13.4. No Applicant and/or Registrant shall be entitled to any form of compensation, damages or refund as a result of a decision by the Registry to suspend or delete a Domain Name, and/or following the implementation of such decision.

CHAPTER 5. General Provisions

Article 14. Domain Name Syntax Requirements; Domain Name Specifications; Reserved Names; Registry Reserved Names

14.3. Domain Names that are identical to Reserved Names will be unavailable at the time of delegation of the .CSC TLD; however, the Registry reserves the right to allocate to and register a Domain Name mentioned on the list of Reserved Names in the name of a party indicated by the Registry (or itself).

14.4. Geographic Domain Names will be exclusively registered in the name of the Registry, unless agreed upon otherwise with the authority competent for giving its consent in accordance with Specification 5 of the Registry Agreement. Where consents are required prior to the registration and use of a Geographic Domain Name referred to and in accordance with Specification 5 of the Registry Agreement, the Applicant will obtain such consents before registering and/or using these Domain Names.

Article 15. Term of Registration

15.1. When registering a Domain Name, the Applicant / Registrant must select the number of years for which the Domain Name is registered. The Term shall commence on the date of registration or renewal of the Domain Name, and shall expire on the same day of the month within which the Domain Name was registered.

15.2. The Registry is under no obligation to inform the Registrant in advance when the Term is about to expire.

15.3. The Registry may terminate any Registered Domain Name at any time and for any reason, by giving the Registrant a notice of at least 30 (thirty) calendar days, without the Registrant being entitled to any compensation, refund or damages whatsoever.

Article 16. Amendments
