

## **.Brand TLD Designation Application**

Internet Corporation for Assigned Names and Numbers (“ICANN”)  
12025 Waterfront Drive, Suite 300  
Los Angeles, California 90094  
Attention: New gTLD Program Staff

RE: Application for .Brand TLD Designation

Deloitte Touche Tohmatsu, a Swiss verein (“**Registry Operator**”), in connection with the execution of the Registry Agreement for the .deloitte TLD (the “**Registry Agreement**”), hereby applies for .deloitte TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD Application Process and Specification 13 attached thereto, and that all supplemental material accompanying this application is accurate and not misleading in any respect. Registry Operator also represents that the trademark registration attached hereto as Exhibit A, the registration policies attached hereto as Exhibit B (the “**Registration Policies**”), and the SMD file ID number attached hereto as Exhibit C are complete and accurate copies of the official trademark registration, Registry Operator’s registration policies for the TLD, and the SMD file ID for the TLD for which this application is submitted respectively.

As set forth in the Registration Policies, eligibility to register and use domain names in the .deloitte TLD will be limited to Registry Operatory and, in Registry Operator’s sole discretion, to other entities in the “Deloitte Network” (which refers to Deloitte Touche Tohmatsu Limited, its member firms, and their related entities (including Registry Operatory)). Entities in the Deloitte Network are or will be “Affiliates” or “Trademark Licensees” of Registry Operator (as each of those terms is defined in the Registry Agreement and Specification 13).

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry

Operator, and ICANN may assert its rights under the Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13. Questions about this request should be directed to [REDACTED]

Please find enclosed the certificate of registration for Community Trade Mark No. 003594736 which was published in the Community Trade Marks Bulletin no. 2005/031 on 01/08/2005 (see OHIM's website: <http://oami.europa.eu>).

This certificate contains information from the Community Trade Marks Register at the date of registration (see code 151 on the certificate). If you have filed a request for modification of data on or after that date, no new certificate will be issued. You will be notified separately of the change after which an extract from our database may be requested to reflect the administrative status of the mark.

For an explanation of the codes on the certificate please consult the Vademecum on OHIM's website: <http://oami.europa.eu/pdf/mark/vademecum-ctm-en.pdf>.

If you do not agree with the content of this certificate please do not send back the original. You should instead send the Office a letter indicating your objections, which will be dealt with separately.

**Exhibit B**

**Registration Policies**

# **.Deloitte Registration Policies**

These .Deloitte Registration Policies (these “**Policies**”) set forth the registration policies for the .deloitte top-level domain (“.deloitte”). Deloitte Touche Tohmatsu, a Swiss verein (“DTT”), is the registry operator for .deloitte. As used in these Policies, the “**Deloitte Network**” refers to Deloitte Touche Tohmatsu Limited, its member firms, and their related entities (including DTT).

## **Domain Name Registration Policy**

### **1. Registration Eligibility**

Eligibility to register and use .deloitte domain names, at any level, is limited to DTT (the registry operator) and, in DTT’s sole discretion, to other entities in the Deloitte Network. Because .deloitte is a .brand (or closed) top-level domain, .deloitte domain names can be registered to only DTT and, if authorized by DTT, other entities in the Deloitte Network, and are not available to the general public for registration.

If DTT authorizes another entity in the Deloitte Network to register a .deloitte domain name, the registering entity must adhere to these Policies and any other internal registration and operating policies that DTT may adopt with respect to .deloitte (including any policies that DTT requires to maintain .deloitte’s status as a .brand top-level domain). If an entity which has registered a .deloitte domain name no longer qualifies to be an entity in the Deloitte Network, DTT may transfer that domain name to itself or another entity in the Deloitte Network, or DTT may delete the domain name entirely.

DTT may, in its sole discretion, suspend, cancel, revoke, or take other action it considers necessary with respect to a .deloitte domain name registration if it determines in its sole discretion that the registration does not meet registration eligibility set forth in these Policies or other internal registration and operating policies that DTT may adopt from time to time with respect to .deloitte.

### **2. Domain Name Allocation**

DTT will maintain an internal process that defines how domain name requests can be made and are reviewed and approved. Once DTT approves a domain name for registration and use, it must be registered through the ICANN-accredited registrar that has been selected by DTT. DTT may amend its process and policies for registration and use of .deloitte domain names at any time in its sole discretion.

### **3. Technical Requirements**

All domain names registered in .deloitte must follow the DNS standards and meet the technical requirements of DTT’s registry operator agreement with ICANN. Internationalized domain name (IDN) labels will be generated according to IDNA standards and the ICANN IDN Implementation Guidelines.

### **4. Reserved Names**

DTT will not release any reserved names in accordance to ICANN’s policies, examples of which can be found at <https://www.icann.org/sites/default/files/packages/reserved-names/ReservedNames.xml>. In addition, all two characters labels and country and territory names will be initially reserved and may only be released upon ICANN’s approval. DTT may also periodically reserve additional domain names from registration its sole discretion.

## **5. Disputes**

DTT agrees to comply with the dispute resolution mechanisms that are required under DTT's registry operator agreement with ICANN.

## **6. Authority Regarding Domain Names**

At any time, and from time to time, DTT may, in its sole discretion and for any reason or for no reason, deny, cancel, revoke, or transfer any domain name registration or transaction or place any domain name on registrar lock, hold, or similar status.

### **Changes to these Policies**

DTT may periodically change these Policies in its sole discretion and without prior notice. The current version of these Policies can be found at [**INSERT LINK**], and each entity that registers or uses a .deloitte domain name is responsible for keeping informed of the then-current version of these Policies. Continued registration or use of a .deloitte domain name after any update to these Policies constitutes acceptance of the current version of these Policies.
