RE: Application for .Brand TLD Designation

DISH DBS Corporation ("Registry Operator"), in connection with the execution of the Registry Agreement for the .DISH TLD (the "Registry Agreement"), hereby applies for .DISH TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD Application Process and Specification 13 attached thereto, and that all supplemental material accompanying this application is accurate and not misleading in any respect. Registry Operator also represents that the trademark registration attached hereto as Exhibit A, the registration policies attached hereto as Exhibit B, and the SMD file ID number attached hereto as Exhibit C are complete and accurate copies of the official trademark registration, Registry Operator's registration policies for the TLD, and the SMD file ID for the TLD for which this application is submitted respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator, and ICANN may assert its rights under the Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13.

Please note that the Registry may modify this Policy periodically at its sole discretion. Any modifications or amendments to this Policy shall be effective upon posting on the DISH Registry website and giving 90 days prior written notice to the exclusive DISH Registrar(s) selected by the Registry.

The registration of Domain Names must be approved by authorized person(s) identified by the Registry (“Authorized Person”) in addition to Registrant meeting all requirements under the Registry Rules.

The registration of Domain Names will be centralized and managed through the exclusive DISH Registrar(s) selected by the Registry.
