- Chrysler’s TLD (.DODGE) is identical to the textual elements protectable under applicable law of a valid registered trademark
- Chrysler’s trademark is recorded with, and issued a signed mark data file by the Trademark Clearinghouse and meets all eligibility requirements.
- Chrysler’s trademark is owned and used by the Registry Operator and its Affiliates in the ordinary course of Registry Operator’s and its Affiliates’ business in connection with the offering of any of the goods and/or services claimed in the trademark registration.
- Chrysler’s trademark was issued to Registry Operator prior to the filing of its TLD registry application with ICANN.

- Chrysler’s trademark does not begin with a period or a dot.
- Chrysler’s trademark is used by Registry Operator in the conduct of one or more of its businesses that are unrelated to the provision of TLD Registry Services.
- Registry Operator has provided ICANN with an accurate and complete copy of such trademark registration. (See Exhibit A).
- Only Registry Operator, its Affiliates or Trademark Licensees are registrants of domain names in the TLD and control the DNS records associated with domain names at any level in the TLD (See Exhibit B).
- Registry Operator’s trademark is registered within the TMCH as validated in the SMD file ID for the TLD (See Exhibit C).
- The TLD is not a Generic String TLD (as defined in Specification 11).
Registry Operator also represents that the trademark registration attached hereto as Exhibit A, the registration policies attached hereto as Exhibit B, and the SMD file ID number attached hereto as Exhibit C are all complete and accurate copies for the TLD to which this application is submitted, respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator, and ICANN may assert its rights under the Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13.
