RE: Application for .Brand TLD Designation

NTT Resonant Inc. ("Registry Operator"), in connection with the execution of the Registry Agreement for the .goo TLD (the "Registry Agreement"), hereby applies for .goo TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD Application Process and Specification 13 attached thereto, and that all supplemental material accompanying this application is accurate and not misleading in any respect. Registry Operator also represents that the trademark registration attached hereto as Exhibit A, the registration policies attached hereto as Exhibit B, and the SMD file ID number attached hereto as Exhibit C are all complete and accurate copies for the TLD to which this application is submitted, respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator, and ICANN may assert its rights under the Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13.

If the Registrant ceases to be eligible at any time in the future, the Registry may cancel or suspend the licence to use the Domain Name immediately.

The registration of Domain Names must be approved by an authorized person(s) as nominated by the Registry (“Authorized Person”) in addition to meeting all requirements under the Registry Rules.

The registration of Domain Names will be centralized and managed through the exclusive Registrar(s) selected by the Registry.

2. REQUIRED CRITERIA FOR DOMAIN NAME REGISTRATION
An application for Domain Name registration must meet all the following criteria:

(i) availability;
   a. the Domain Name is not already registered
   b. it is not reserved or blocked by the Registry

(ii) technical requirements;
   a. a maximum of 63 characters (after its conversion into the ASCII for IDNs);
   b. use of characters selected from the list of supported characters as nominated by the Registry;
   c. any additional technical requirements as required by the Registry from time to time.

(iii) compliance with all requirements under the Registry Rules.

3. OBLIGATION OF REGISTRANTS
The Registrant must enter into an agreement with the Registrar for Domain Name registration under which the Registrant will be bound by the Registry Rules specified through the Registry-Registrar agreement as amended by the Registry from time to time.

The Registrant must also agree to be bound by the minimum requirements in clause 3.7.7 of 2013 ICANN Registrar Accreditation Agreement as amended from time to time (“2013 ICANN RAA”).

The Registrant must represent and warrant that:

(i) it meets, and will continue to meet, the eligibility criteria at all times and must notify the Registrar if it ceases to meet such criteria;

(ii) the registration, renewal and use of the Domain Name does not violate any third party intellectual property rights, applicable laws or regulation;

(iii) the registration and use of the Domain Name is made in good faith and for a lawful purpose;

(iv) if the use of registered Domain Name is licensed to a third party,

   b. where there is a breach of any provisions contained in the Registry Rules by the licensee of the Domain Name, Registry may revoke the Domain Name at its sole discretion.

(v) it owns or otherwise has the right to provide all registration data (including personal information) for each Domain Name registered and provision of such registration data complies with all applicable data protection laws and regulations; and

(vi) It has appropriate consent and licences to allow for publication of registration data in the WHOIS database.
4. **REGISTRANT CONTACT INFORMATION**

   c. obscene speech or materials;
   d. defamatory or abusive language;
   e. forging headers, return addresses and internet protocol addresses;
   f. illegal or unauthorized access to other computers or networks;

8. **RESERVED NAMES**

The Registry may place certain names in its reserved list from time to time where:

(i) the Registry believes in its sole discretion that use of such names may pose a risk to the operational stability or integrity of the Registry;
(ii) in accordance with ICANN’s specifications contained in the Registry Agreement, guidelines or recommendations;
(iii) there is a risk of trademark infringement or where the name otherwise may cause confusion taking into consideration the mission and purpose of the TLD; or
9. ALLOCATION OF DOMAIN NAME
The Registry will register Domain Names on a first-come, first-served basis in accordance with the Registry Rules. The Registry does not provide pre-registration or reservation of Domain Names.

10. TERM OF REGISTRATION / RENEWAL
Initial term of registration:
A Domain Name can be registered for a period between one (1) to ten (10) years. Upon registration of a Domain Name, the Registrant holds a licence to use the Domain Name for the registration period.

The Registrant may cancel a Domain Name registration at any time by submitting its request in writing with the Registrar.

Auto-renewal:
Upon expiry of the Domain Name, the Registry will auto-renew the Domain Name for a one year term (1) year term unless the Registrant submits its intention not to renew the Domain Name.

The Registry will implement the business rules for the renewal of Domain Names documented in appendix 7 of the .com Registry Agreement, as amended from time to time.

11. TRANSFER OF DOMAIN NAMES BETWEEN REGISTRANTS
Any transfer of a Domain Name between Registrants must be approved by the Registry through the Registrar in accordance with the Registry Rules.

12. PRIVACY AND DATA PROTECTION
By registering a Domain Name, the registrant authorizes the Registry to process personal information and other data required for the operation of the TLD. The Registry will only use the data for the operation of the Registry including but not limited to its internal use, communication with the Registrant or the Registrar, and provision of WHOIS look-up facility.

The Registry may only transfer the data to third parties:
(i) with the Registrant’s consent;
(ii) in order to comply with laws, regulations or orders by a competent public authority and any Alternative Dispute Resolution (ADR) providers; or
(iii) for a publicly available and searchable WHOIS look-up facility, in accordance with specification 4 of the Registry Agreement.

13. WHOIS
The Registry provides a publicly available and searchable WHOIS look up facility, where information about the Domain Name’s status (including creation and expiry dates), and registrant, administrative and the technical contact administering the Domain Name can be found, in accordance with specification 4 of the Registry Agreement.

In order to prevent misuse of the WHOIS look up facility, the Registry requires that any person submitting a WHOIS database query will be required to read and agree to the terms and conditions, which will provide that:
(i) the WHOIS database is provided for information purposes only; and
(ii) the user agrees not to use the WHOIS information to allow or enable the transmission of unsolicited commercial advertising or other communication via email or other methods to the Registrants.
