RE: Application for .Brand TLD Designation

Microsoft Corporation ("Registry Operator"), in connection with the execution of the Registry Agreement for the .SKYPE TLD (the "Registry Agreement"), hereby applies for .SKYPE TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD Application Process and Specification 13 attached thereto, and that all supplemental material accompanying this application is accurate and not misleading in any respect.

- The .SKYPE string is identical to the textual elements of the European Union SKYPE trademark; registration number 5903786 (copy attached as Exhibit A).
- This registered trademark was issued 11 April 2008, before the 28 May 2012 filing date of the .SKYPE registry application with ICANN.
- The SKYPE trademark is recorded with, and has been issued a signed mark data file by, the Trademark Clearinghouse (SMD file ID attached is Exhibit C).
- Registry Operator and its Affiliates use the SKYPE trademark in connection with Registry Operator's voice over internet platform.
- Only Registry Operator and its Affiliates or Trademark Licensees will be registrants of domain names in the .SKYPE TLD and control the DNS records associated with domain names at any level in the .SKYPE TLD.
- The .SKYPE TLD is not a Generic String TLD (as defined in Specification 11).

Registry Operator also represents that the trademark registration attached hereto as Exhibit A, the registration policies attached hereto as Exhibit B, and the SMD file ID number attached hereto as Exhibit C are complete and accurate copies of the official trademark registration, Registry Operator's registration policies for the TLD, and the SMD file ID for the TLD for which this application is submitted respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration policies for the TLD (whether before or after this application has been approved) that may disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and accurate copy of the revised registration policies. In addition, if Registry Operator fails to maintain the trademark registration underlying its .Brand TLD application, it shall promptly notify ICANN of such failure. Registry Operator also agrees to maintain the criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any changes in circumstances that could alter the statements made, and supporting materials provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator and, if any of the foregoing representations and agreements becomes untrue or not complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator, and ICANN may assert its rights under the

Registry Agreement, including by determining that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13. Questions about this request should be directed to [REDACTED].
