Amendment No. 1 to Registry Agreement

The Internet Corporation for Assigned Names and Numbers and Vox Populi Registry Ltd. agree, effective as of ("Amendment No. 1 Effective Date"), that the modification set forth in this amendment No. 1 (the "Amendment") is made to the 22 December 2014 .sucks Registry Agreement between the parties, as amended ("Agreement").

1. Amendment to Agreement. Effective as of the Amendment No. 1 Effective Date, the Agreement shall be amended as follows:

The parties hereby agree to amend Exhibit A of the Agreement by adding the following new text as a new section 4:

[START NEW TEXT]

"4. Consolidate Service

Registry Operator may offer the Consolidate Service, which allows registrants to manage multiple registrations by syncing the expiration date of an existing domain name registration to a specific date in the future. Consolidate Service is a separate transaction and does not replace renewal transactions.

4.1. Reporting

Consolidate Service transactions must be reported by the Registry Operator to ICANN as separate transactions in increments of days.

4.2. Fees

In addition to, and as part of, the fees paid by Registry Operator pursuant to Article 6 of the Agreement, Registry Operator shall pay transaction fees for Consolidate Service transactions ("Consolidate Fees") on a prorated basis. The Consolidate Fees shall be prorated by the days added to the expiration date where one day is 1/365th of the sum of (i) the Registry-level transaction fee per Section 6.1(a)(ii) of the Agreement and (ii) the transaction-based fee portion of the registrar variable accreditation fee per the then-current Registrar Accreditation Agreement (or Section 6.3 of the Agreement, if applicable). For the avoidance of doubt, the ICANN budget breaks down the registrar variable accreditation fee into the per registrar variable fee and the Consolidate Fees in Section 4.2(ii) above apply to transaction-based fees only. In the event ICANN begins directly collecting the transaction-based fee portion of the variable accreditation fees for Consolidate Service transactions for the TLD from registrars, the parties shall negotiate a modification, if necessary, to the Consolidate Fees.

4.3. Transaction Threshold

Consolidate Service transactions apply toward the Transaction Threshold per Section 6.1(a) of the Agreement such that every 365 days of total Consolidate Service transactions equates to one (1) transaction for the Transaction Threshold of 50,000.

4.4. Rules
a) Consolidate Service can be performed on a domain name only once in any 12-month period. In a given year, the expiration date of a domain name cannot be extended beyond 364 days using the Consolidate Service.

b) There are no grace periods for Consolidate Service transactions such as those that apply to new registrations or renewals.

c) Consolidate Service cannot be used on domain names in the following EPP statuses:
   i.  Base statuses: pendingCreate, pendingDelete, pendingRenew, serverRenewProhibited, clientRenewProhibited.
   ii. Redemption Grace Period (RGP) statuses: redemptionPeriod, pendingDelete, pendingRestore.

d) Registry Operator must deploy the Consolidate Service via an EPP extension and via the Registry Operator’s web console.

e) Registrars must certify that use of the Consolidate Service is only offered to registrants with multiple registrations and registrants must be informed about the rules of consolidate transactions.

[END NEW TEXT]

The parties also hereby agree to amend Specification 3, Section 1 (Per-Registrar Transaction Report) of the Agreement by adding the following columns as new text:

[START NEW TEXT]

<table>
<thead>
<tr>
