RE: Application for .Brand TLD Designation

William Hill Organization Limited ("Registry Operator"), in connection with the execution
of the Registry Agreement for the .williamhill TLD (the "Registry Agreement"), hereby
applies for .williamhill TLD to be qualified by ICANN as a .Brand TLD.

Registry Operator confirms and represents to ICANN that the TLD meets each of the
criteria for the TLD to be qualified as a .Brand TLD, as described in the .Brand TLD
Application Process and Specification 13 attached thereto, and that all supplemental
material accompanying this application is accurate and not misleading in any respect.
Registry Operator also represents that the trademark registration attached hereto as
Exhibit A and the registration policies attached hereto as Exhibit B are complete and
accurate copies of the official trademark registration and Registry Operator's registration
policies for the TLD, respectively.

Registry Operator agrees that if Registry Operator makes any changes to its registration
policies for the TLD (whether before or after this application has been approved) that may
disqualify the TLD as a .Brand TLD, it will promptly provide ICANN with a complete and
accurate copy of the revised registration policies. In addition, if Registry Operator fails to
maintain the trademark registration underlying its .Brand TLD application, it shall
promptly notify ICANN of such failure. Registry Operator also agrees to maintain the
criteria required to qualify as a .Brand TLD and to immediately notify ICANN of any
changes in circumstances that could alter the statements made, and supporting materials
provide with, this application.

Registry Operator acknowledges and agrees that this letter is binding on Registry Operator
and, if any of the foregoing representations and agreements becomes untrue or not
complied with, it shall be deemed a breach of the Registry Agreement by Registry Operator,
and ICANN may assert its rights under the Registry Agreement, including by determining
that the TLD no longer qualifies as a .Brand TLD pursuant to the terms of Specification 13.
Questions about this request should be directed to [Registry Operator to provide].
