

22 December 2025

Subject: SSAC2025-03: Appointment of SSAC Representative to the RZERC

To: Geoff Huston, RZERC Chair, SSAC Representative to the RZERC

CC: Daniel Gluck, ICANN Policy Development Support

In 2016, ICANN formed the Root Zone Evolution Review Committee (RZERC) to review proposed architectural changes to the content of the DNS root zone. The RZERC's charter leaves the appointment of members (including their term length and term limits) to each organization's/group's internal process.

Notice is hereby given that the SSAC has extended the term of Geoff Huston as its representative to the RZERC for the period of one additional year: 1 January 2026–31 December 2026. This extension is intended to align the conclusion of your term as SSAC representative term with the remainder of your current RZERC Chair term.

Ram Mohan
Chair, ICANN Security and Stability Advisory Committee
