

CSC Findings of IANA Naming Function Performance Report for the Month of September 2025

Date: 30 October 2025

Overall finding

The CSC completed review of the September 2025 IANA Naming Function Performance Report and finds that PTI's performance for the month was:

Satisfactory – PTI's performance over September 2025 was 98.4%.

This was due to missing the SLA of: Technical Check (Supplemental) Routine (Technical).

The cause and dissolution of the missed SLA have been satisfactorily explained by PTI and the CSC has determined that this exception is no cause for concern. No persistent problems were identified and no further action is needed.

Metrics that the CSC is tracking closely

Currently, there are no metrics requiring close tracking.

SLA metrics that are in the process of being changed

Currently, there are no SLAs in the process of being changed.

Report of escalations

No new escalations were received during the reporting period.
