Emails: [REDACTED]

Dear [REDACTED]:

Please be advised that as of 11 February 2026, Haveaname, LLC ("Haveaname" or "Registrar") is in breach of its 2013 Registrar Accreditation Agreement with the Internet Corporation for Assigned Names and Numbers ("ICANN") dated 7 September 2025 ("RAA"). This breach results from:

1. Haveaname's failure to pay due accreditation fees, in violation of Section 3.9 of the RAA.

Please refer to the attachment for details regarding this Notice of Breach.

Additional Concerns

As part of the RAA renewal process, ICANN required certain information and documentation from Haveaname, through which ICANN may verify, for example, current contact information and that Haveaname remains established and in good standing.

To date, ICANN has not received the requested information.

ICANN requests that Haveaname cure the breach by 4 March 2026, 21 days from the date of this letter, by taking the following actions:

1. Pay all current and past due accreditation fees, as required by Section 3.9 of the RAA.

2. Provide ICANN with a completed RIS form including accurate and current information, the required documentation of good standing, and a link to the location of the applicable information within Haveaname's website where the following is displayed:
 - a. The name and positions of the Registrar's officers.
 - b. The Registrar's correspondence address.
 - c. If different from the Registrar's correspondence address in item 2b, the Registrar's principal place of business, including address, phone number, fax number and email address.
 - d. If applicable, the Registrar's ultimate parent entity.
3. Provide the first name, last name, email address, title (primary contact or designee), and training completion date of at least one (1) current employee at Haveaname's organization who has recently completed the RAA Registrar Training course, as per Section 3.13 of the RAA.
4. Provide the remediation measures, including implementation dates, that Haveaname will take to ensure that contractual obligations related to Section 3.9 of the RAA will be timely met, as well as responses to ICANN's requests related to contractual obligations.

If Haveaname fails to timely cure the violations explained in this Notice of Breach and provide the information requested by 4 March 2026, ICANN may commence the RAA termination process.

If you have questions or require assistance, please contact Jonathan Denison ([REDACTED]).

Sincerely,

[SIGNATURE REDACTED]

CHRONOLOGY

In the compliance case detailed in the chronology below, ICANN notified Haveaname of the violations, including the relevant ICANN policies, agreements and processes.

Each communication requested the evidence, information and actions needed from Haveaname to become compliant. Each subsequent communication to the compliance notifications constituted an additional attempt by ICANN to obtain evidence of compliance from Haveaname. The telephone call details below describe further attempts from ICANN to communicate the details of the cases, and to make an ICANN Contractual Compliance staff member available to address any questions in order to assist Haveaname in becoming compliant. All efforts were unsuccessful.
