Re: Proposal #2008007, Abusive Use Policy

Dear Scott,

ICANN previously conducted a thorough review of the proposed Abusive Use Policy. On 18 July 2008, Afilias was advised by letter that ICANN's preliminary determination did not identify any significant competition or security and stability issues. A review of the amended policy also did not identify any significant competition or security and stability issues. The amendment to the Abusive Use Policy provided by Afilias on 31 July does not require a change to the .INFO Registry Registrar Agreement. Afilias may implement the Abusive Use Policy as amended on 31 July 2008.

Patrick
