RE: Registry Request #2009001, Request to modify handling of names pending verification

Dear Matt,

ICANN has conducted a preliminary determination of RegistryPro's request to modify the handling of domain names pending verification, in accordance with the Registry Services Evaluation Policy and process set forth at <http://www.icann.org/registries/rsep/rsep.html>.

ICANN's preliminary determination did not identify any significant competition or security and stability issues. The proposed modification does not require a change to the .PRO Registry Agreement (signed 3 May 2002). RegistryPro may implement the modification as proposed.

Patrick
