Mr. Göran Marby
President and CEO
ICANN

Dear Mr. Marby,

In recent days, we are experiencing an unprecedented situation with the raid of Spanish police in the offices of the PuntCAT Foundation, and the arrest of one of its workers.

From the PuntuEUS Foundation, entity responsible for the .EUS domain management, we observe with great concern the measures being taken by the Spanish Government, since they represent a great violation of the freedom of the Internet and the domain system.

As members of the Internet community, we wish to convey to ICANN our deep concern, and we request that on behalf of the Internet community publicly condemn these measures by upholding the values that govern ICANN and the Internet.

Sincerely yours,
